Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The invention relates to a process of preparing amino substituted benzothiazole

derivatives of Formula I comprising the cyclization of compounds of Formula

with sulfoxide in the presence of HBr and solvent.

The closest prior art is EP 529600, which describes the process of preparing amino-

benzothiazoles by reaction of the structure above with concentrated sulfuric acid and bromine. The use of mild reagents such as sulfoxide affords higher yield by reducing the unwanted side reactions. The process described in this application is not taught or suggested by the prior art.
